

IGeS Bulletin N. 8

Summary

Foreword	1
On some methods of downward continuation of mean free-air gravity anomaly (Hossein Nahavandchi)	page 1
There is no such thing as 'the' EGM96 geoid: subtle points on the use of a global geopotential model (Dru A. Smith)	page 17
Documentation of the GPS benchmark data set of 23 July 98 (Dennis G. Milbert)	page 29
Report of the Second Continental Workshop on the geoid in Europe Budapest March 10-13 1998 (J. Adam and M. Vermeer)	page 43
A classification of reproducing kernels according to their functional and physical significance (A. Marchenko and D. Lelgemann)	page 49
On the differences between quasi-geoid height and geoid undulation (M. Ivan)	page 53
African regional gravimetric geoid 1997: Stokesian approach (Hassan H. Fashir, A. Majid, A. Kadir)	page 65
<i>SPECIAL SECTION - Geoid and geomatics</i>	
A GIS based strategy for quality control of gravimetry (Thomas Knudsen, Arne V. Olesen)	page 85
Mean density map for the Italian region by GIS techniques (V. Baiocchi, M. Crespi, F. Riguzzi)	page 93
Gravimetric geoid modelling with GIS (S.D. Pagiatakis and C. Armenakis)	page 105
Geodetic data management with GIS and DBMS techniques (L. Biagi, M.A. Brovelli, G. Salemi)	page 113
